

Added Value

The reason why you have received this mail is because you have been placed on the preferred client list of either Justicia Investigations, Guarding SA or Whistle Blowers, three separate companies that form the Symbiotix Group of companies. You may have received newsletters in the past where you have been warned about criminals or syndicates that target certain companies. This information would have been compiled by our investigators at Justicia Investigations in an effort to make you more aware of the latest criminal trends. Based on the previous success of this initiative we have been requested by numerous parties or individuals to continue with the newsletters. Suggestions have been made that we include a series of newsletters advising you on a pro active approach to securing your assets. We will attempt to arm you with the necessary tools and knowledge by informing you of actual crimes solved or prevented by the integration of our holistic solutions. We will also advise on the exact nature of tools used to achieve the desired results.

Are you a victim of crime?

We will be embarking on an awareness campaign over the next few months to assist you with evaluating your own situation in order to answer the abovementioned question for yourself. In our line of work and with the experience we have in the field of combating crime, we come across some situations, which we hope to share with you to empower you to put preventative measures in place. A safer environment for one is a safer environment for all of us. A lot of people may ask, "Why?". We respond by telling everyone that the more alert we are, the more equipped we are to prevent a mishap! Our communication tool will be in the form of a newsletter which we will put together on a monthly basis covering all aspects of risk management. I am sure what we share with you will not only be informative but assist you to manage risk more effectively. We hear about crime every day of our lives and are subjected to endless tales of "How they got away!". With this service we hope to change the tale to "How we got 'em!"

Watch this space for upcoming events!

If you have only joined us recently we urge you to visit our website www.symbiotix.co.za. This website contains a lot of valuable information involving our pedigree in the sphere of work, as well as previous newsletters, stories and in the press articles.
